Hi Katrina,

Glad that you asked. We just finished review on the Draft tables. We will be doing a final QA on it this week just to ensure that everything is accurate, but we aren't expecting any changes.

Please see the attached and let us know if you have any questions or concerns.

Thanks,
Patrick

Subject: Wilcox Residential Data Submittal Status

Patrick, will you please provide us with an update on the status of the residential data. Please respond to all. I will be out of the office beginning Friday, 4th through Friday, 11th and will not be able to forward to those that need to review.

thanks

Katrina Higgins-Coltrain

Hi Katrina,

Sorry for the delay in getting back to you on the data progress. I just spoke with Mark and explained to him that the Gold King Mine ER has pulled several of our resources who were currently working

on the data evaluation.

Our goal is to get back to work on reviewing and loading the data and ensure that we have received everything from the labs as the first priority, which we will attempt to have completed by the end of this week. Once we are certain that we have received all of the data, we will then be able to begin to generate tables for your review along with the figures showing where any exceedances might have been.

We will get these tables for you as soon as we can, our goal is by the end of next week to have the first round of draft tables completed for review.

Thanks,
Patrick

Mark,

We are currently working on loading the data and confirming that we have all of the data. It should be mid-week when we will have data tables ready.

Derrick,

All sample results should've been submitted from the lab. How soon can you guys have a preliminary report/data tables completed?
